

OLUNIRAN ENOCH DAMILARE

Email: oluniranenochdamilare@gmail.com | **Phone:** +234 905 242 1994, +234 708 655 1627

Linkedin: <https://www.linkedin.com/in/oluniran-enoch-damilare-6b4635216>

PROFESSIONAL SUMMARY

Experienced hands-on Embedded Systems Engineer, with experience in designing, integrating and testing intelligent hardware systems. Familiar with embedded system development, robotics and hardware software integration. Hands-on experience with the use of AI and computer vision in the real world and extensive experience with UAV systems. Keen on creating reliable, practical and innovative embedded solutions to solve real world problems.

SKILLS

- Embedded systems and Arduino programming
- AI & ML
- Drone piloting and operations
- Strong communication and teamwork
- Project management
- Problem-solving and leadership

PROFESSIONAL EXPERIENCE

Embedded Systems Engineer (Freelance)

January 2021 – Present

Drone pilot

Minna RC, Minna, Niger state

January 2022 - Present

Research Assistant

Advanced Engineering Innovative Research Group, Niger State

January 2022 – 2023

PROJECTS

- Development of a Smart Power monitoring and control system.
- Intelligent Walking Stick: Designed a smart walking stick with obstacle detection and navigation assistance for visually impaired individuals.
- 4WD Remote-Controlled Surveillance And Rescue Robot Project.
- Development of a Gas Leakage and control system.
- Development of a Low cost UAV for Transmission line monitoring.
- Designed and developed a UAV for remote medical supplies dispatch.

- Fingerprint-Based Authentication System: Developed an embedded system for secure access control using fingerprint technology.
- Pipeline Leakage Monitoring System: Created a sensor-based IoT system for real-time monitoring of pipeline conditions.
- ML project: Energy theft prediction project using Random Forest classifier.
- ML project: Graduation prediction project using soft voting Ensemble learning.
- Additional prototypes combining hardware and software for automation and efficiency.

CERTIFICATIONS & COURSES

- Coursera: Introduction and Programming with IoT Boards
- Simplilearn Skillup: Introduction to IOT
- Simplilearn Skillup: Introduction to AI
- ALX: AI Career Essentials
- LinkedIn Learning: Career Essentials on Generative AI
- LinkedIn Learning: Artificial Intelligence Foundations: Machine Learning
- 3MTT & IHS: Introduction to AI & ML
- Udemy: Introduction to Machine Learning Course
- Udemy: Introduction to Python Course
- AWS: DeepRacer - Introduction to Machine Learning & Reinforcement Learning Course

EDUCATION

Bachelor of Engineering in Electrical Electronics Engineering Federal University of Technology, Minna, Niger State	2025
Senior Secondary Certificate Examination (SSCE) Oke-Afa Senior Comprehensive College, Oke-Afa, Lagos	2015

REFEREES

1. Dr. T.A. Folorunso
Department of Mechatronics Engineering
Federal University of Technology, Minna, Nigeria,
Funso.taliha@futminna.edu.ng
+234 703 422 6984
2. Engr. Dr. Abubakar Sadiq Ahmad
Department of Electrical Engineering
Federal University of Technology, Minna, Nigeria,
